Hello,

The majority of the work is complete, but I am not sure exactly which tasks remain to be completed and which are ongoing. Asbestos and lead abatement have already occurred to the best of my knowledge. I just confirmed with the district, Carver is set to reopen as a Pre-K facility run by Garden Grove School District on 9/8/15.

Thank You,

-Eric Canteenwala

Hi –

I'm talking with Robina S and just wanted to verify – it was my understanding from reading the emails from the Land Division that the Carver school renovation work is complete and the school is opening back up shortly. Do you know if that's true or not? Thanks.
